LONDON, Feb. 10 .- The grave situation in Ulster growing out of the Home Rule fight was emphasized in King George's speech from the throne that officially opened Parliament to-day.

In a matter in which the sopes and fears of so many of my subjects are keenly concerned and which unless handled now with foresight and judgment and in a spirit of mutual concessions threatens grave ruture difficulties, it is my most earnest wish that the good will and coperation of men of all parties and reeds may heal the dissension and lay the foundation of a lasting settle-
